How to make a pixel perfect website for best user experience. Learned about styling the website with CSS and its preprocessrors SCSS & Stylus.

2022-11 - 2024-02
Metahill
Frontend Developer

I utilized React and Next.js to develop dynamic web applications, ensuring seamless user experiences and optimizing performance through server-side rendering and component-based architecture.

2024-03 - Present
Codeworks Consulting
Frontend Developer

I employed Vue.js and Nuxt.js to build dynamic web solutions, emphasizing responsive user experiences and enhancing performance with server-side rendering, while leveraging Vue's inherent reactivity and modular architecture.
